

# Crested China Radio Speakers

The private collection of crested china radio speaker horns is offered for sale. The collection has been established since the late 1990s, and today there are about 100 different marks and crests combinations in the collection, but it is still growing. *It is a nice collection for exhibition in a museum or private collection of antique radios.* Unfortunately, it will soon be time to find a new home for the whole collection.

The value is estimated to be around £1,900. Please contact the owner by e-mail if you are interested in taking over the whole collection as one lot for private exhibition or a public radio museum.

*Photo 2023*

*Latest additions*

*Shanklin crest, luster glaze*

*Denbigh crest, Victoria*
